# Working With Electricity at Work

T. +44 (0) 7712 461474

## About this online Working with Electricity Course

*Working with electricity is an everyday thing, but we often take this for granted. There are lots of dangers when working with electricity. It's essential to be aware of these and carry out practices to stay safe. Here, we will look at a few of the dangers of electricity and the steps we can take to prevent accidents from happening.*

## What does the Working with electricity course cover?

The Working with electricity course covers:

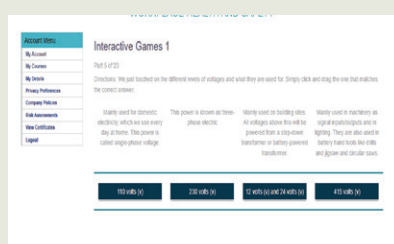

- Health and safety
- Miniature circuit breakers (MCBs) and residual current devices (RCDs)
- Inspection and testing

## What is the benefit of Working with electricity training in your business?

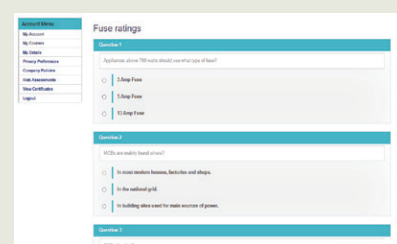

*Those working under the Regulations need to understand and appreciate their duties to ensure the safety of all. Even if managers and procurement staff do not directly perform duties under the Regulations, they still need to understand the requirements. Staff can complete their training at any time to suit your needs.*

Video Presentations.

Interactive Games.

Final Exam – Certificates Provided.

***“Each year in the UK alone, around 1,000 electrical accidents at work are reported to the Health and Safety Executive (HSE). Approximately 25 people die from their injuries.”***

Health and Safety Executive - HSE
